

EXP.NO: 4	Data Modelling and Form Design
------------------	---------------------------------------

Aim:

To design the data model and create forms for the **Student Admission Enquiry Management System** using Zoho Creator.

Procedure:

1. Logged in to the Zoho Creator account.
2. Opened the **Student Admission Enquiry Management** application.
3. Created and opened the **Admission Enquiry Form** using the drag-and-drop Form Builder.
4. Added personal and contact-related fields such as **Student Name, Date of Birth, Gender, Email Address, Phone Number, Residential Address, and Guardian Name**.
5. Added academic and admission-related fields such as **Class XII Percentage, Preferred Course, Areas of Interest, Preferred Counselling Time, and Additional Remarks**.
6. Organized the fields into appropriate sections for better form structure and readability.
7. Configured the required field properties and validation rules.
8. Added validation to ensure that the **Class XII Percentage** value was within the valid range.
9. Configured the **Date of Birth** field to prevent invalid future dates.
10. Added a **Terms and Privacy checkbox** to obtain confirmation from the applicant.
11. Created the **Admission Enquiry Report** to view and manage the submitted student enquiry records.
12. Entered sample student data and verified that the records were stored successfully.
13. Checked that the form fields and validation rules worked correctly.
14. Saved the application and confirmed the successful creation of the admission enquiry data model and form.

Observation:

The **Admission Enquiry Form** and **Admission Enquiry Report** were created successfully using suitable field types. The form collected personal, contact, academic, and admission preference details in an organized manner. Validation rules helped ensure that valid data was entered, and the submitted records were stored successfully in the application.

Conclusion:

The experiment demonstrated how Zoho Creator simplifies data modelling and form design through its visual drag-and-drop interface. The **Admission Enquiry Form** was successfully designed with appropriate fields, sections, validations, and reporting capabilities, providing an organized structure for the **Student Admission Enquiry Management System**.
